At Sea July 12, 1868

Lorenzo Peirce is certainly an Unfortunate Man in Whaling his Ships do not get Oil; Oh, could this poor unfortunate Minnesota get One Whale this season how thankful, I should be I would gladly give it all for Charitable & Holy purposes I earnestly Pray that we may get favoured; Grant in Mercy Heavenly Parent that though unworthy that Heavens divine Blessings may once more attend us

Heavenly Parent grant in Mercy that Heavens Blessings may once more attend me, I pray. If I am or can be blessed to get One Whale this season; I will try to become a better Man & strive to be a Christian for the future

July 16,

Heavenly Father Grant in Mercy, I Pray that Heavens favours & blessings may attend this poor and unfortunate vessel with favour

Oh Lord in Mercy I pray that this poor Bark may be favoured to get One Whale is my earnest Prayer; Heavenly Father if we are but favoured I will try to be a humble and devoted Christian

July 19, 1868

Lorenzo Peirce is certainly a ruined Man; my damnation is certain this voyage. I have previously been favoured but now ruined; The Hand of divine Providence is against this unfortunate vessel it is impossible to get One Whale we have seen Whales twice and got Nothing, I do not expect to get A Whale it seems utterly impossible for us to get One

July 26,

I know that I have reached the greatest height of my prosperity and means; I am now in the decline of Life my limited means in regard to Money is now leaving me; I shall yet be without Money or Friends in consequence of this unfortunate voyage; I shall yet be reduced to want and beggary

I know the very Hand of Providence is against us on this voyage in consequence of my sins and ingratitude to my Parents and Brother. The Lord will Not suffer me to prosper any more - His Mercy is clean gone for ever; all blessings are withheld from this poor unfortunate vessel

Aug 1st

Oh Lord in Mercy Grant me understanding to conduct this
Voyage properly Grant in Mercy Heavenly Parent that the
Winds and Seas may favour us & Oh Lord in Mercy smile
upon & bless us with a fair degree of success. I pray
Heavenly Father if prospered this time I will serve the

Oh God the Father of all Mercies. If thou wilt but
condescend to Bless us to get One Whale. I will
try to become a humble and devote follower of thee
Aug 12th

Will the Lord in Mercy ever favour this Unfortunate Vessel
to get One Whale all the Ships have got Oil except this
Could we be so fortunate as to get One Whale how grateful
I should feel to the Lord. I would gladly devote a portion
of my Labour to works of Charity & benevolence; but I fear
we shall get Nothing this Voyage: all my past Efforts are in vain

The Lord's Power is against this Unfortunate Vessel
{ could we be favoured to get One Whale I would } Sund, Aug 30th 1868
try to be a Christian Man but I cannot

Oh Grant in Mercy Heavenly Father that we may be favoured to get One
Whale. I pray that we may not sail over barren Water in vain; I sometimes
think this Voyage: I fear my ruin is certain; Oh Lord be merciful
unto us and bless this Unfortunate Vessel; is my Earnest Prayer
Heavenly Parent in Mercy Bless us One in this Enterprise
& I will devote a portion of my Labour to Charitable purposes
Sept. 27th 1868

and all Concerned the LORD will Not suffer that Poor Vessel to
Catch One Whale the Ocean is Barren where she goes. The Ocean
contains Nothing that the Minnesota will ever get
I am ruined and all concerned; (It Shows A Bale most
of the time) and the Ocean is Barren of Whales where we are
the End of the Year 1868 And Not One Whale shall this
Poor Old Barke ever get; The Year 1869 will End with

Vessels are suffered to go Bozages; They are Not in the
Hognd of successful Men: I am Not Compitant to
have Charge of A Vessel: I cannot get A Bozage

In Mercy Heavenly Father Grant that this Unfortunate Bozage
May Not ruin me for time and Eternity the Season is passing
away and we are getting Nothing; Grant in Mercy; Oh Lord
that we may be favoured to get One more Whale; If the LORD
will favour me Once more I will devote my portion to good

Capt. Beckermans, orders to Mr. Macy in regard
to fitting the rigging, ratting down, & get the ratting
stuff well stretched all will bear (after you have
thrown out some of the turns do not get out too many)
tuck the Splices Once hole, then halve them & tuck
One half of the strand, then tuck the other half again (tack
Eight turns with the Seiring, and tuck the End of the
seiring along the strands of the ratting by tucking the
end three times) Mend all the service aloft where it
is broke seide on all the scotchman & trucks new put
on all the Chafing gear get the rigging ready to tar down
Take off the Scotchman & tar under them, Fit the Span
Lines & square them with the tops, then tar down
the rigging, after that Paint all the Spars

to make the Ship Sail well when running free
from the Wind. Keep the Yards well Squared in
just so the Sails will stand full.

When the Wind is Light Keep the yard braced
rather more, than with a strong breere, so the
Sails will stand full,

To Close reef, A. main topsail Clew it down
& Hall out the rigging partially, then Hoist in
the Weather braces & brace it by the Wind

To Close reef, A. Fore topsail Clew it up & Close
reef it then Sheet it Home & set it

To set A. Spencer or Spanker when blowing Fresh
Hall off the Sheet partially first then Hoist out the
Head

In wearing Ship hall down the Head of the
Spanker (Never mind the Foot or Sheet)

Want of force & animation, wher their is
no force their is nothing done (You must
have the right kind of bait to catch Fish)
Stail bait will not do

When Whales are called, keep a sufficient
distance from them so they cannot perceive
the boats (Say Half Miled) do not get too far
from them to lose the run of them (then let them
get still & try them again

sometimes when Whales are shy let one boat
get to windward of the Whales and mill
them to Leward which you can sometimes
do by getting foreward of their Eye; the let
another boat go on behind them & strike

One day after having missed One, the wind
light attempted to strike again after the Whales
wer still, but could not, the being on the lookout
from behind, One boat then pulled round
the Whales to windward & took them, Head &
Head while the other boats maneuvered on
the Whales Eyes, the Whales attention being
attracted by those boats that were on their
Eyes at the time

(A Moors Eyes are made for use not for ornament)
to splice A Gibb Stay that parts in the end of the boom
tuck it Once each way as for A short splice, then
taper down the ends & marl over them (Cut them down
tapering with A knife) when your are in A hurry
wormer, parcel, & serve over the splice.

to set up the Main topmast Pole & Aft Stay

the Fall to the Windlass & heave away

to put A table upon A Pole & Aft Stay to set it up
to get the upper block upon the stay high enough
put on A short Strap for the Moan to sit in
then he can put on the Strap (high enough)

orders to Mr. Macy take one quarter of Slush three quarters tar. heat the Slush & mix it to tar down the rigging, then take off all the Scotchman on the rigging mend all the service, then commence to ride down the fore & aft Stays & so on

Beckerman Says that an Officer of A. Whale Ship wants plenty of Chain Lightning in his Head to be good for any thing (damn those slow moulded Men that have not got force no animation) about A. Man damn him

In turning in Backstays to get them of A. height Measure from the Lower part of the Dead Eye to the to the Main Rail on each of them then take the difference between the Lower One, and the Higher One turn out the lower dead eye & shorten the lower Stay just the difference between the two dead eyes measuring upon the rope of the Lower One (shorten just the difference on the rope after the dead eye is turned Out of the rope)

In doing business with all Men deal with them as if they were rogues, Weigh & Measure every article you purchase of them examine its quality closely. In A. foreign port in Case anything goes wrong apply at Once to the authorities or leading Men of the place (without delay)

(It is hard) or you cant make Serpents Powder out of Beach Sand. That is the way we have done Work all this Voyage after a Bungling, Hish hash manner.

Beckerman says he Learned to adjust his Sextant by Navigator he had no One to learn him
Has not taken One dozen Lunars this Voyage

June the 10th 1858. This Day One of the Men came
up to the Capt. to ask for a Watch below the Mate
having called all Hands to regulate the Hoole
between Decks and to perform other work
some of the Men Commenced to growl; to the
Mate who then told the growlers to go below
The Capt. then told the Mate to call them up
again & have all Hands kept on deck
untill he told them to have a watch below

She sat beside a cottage porch
A maid of tender years
And adown her cheek was seen to flow
Reflections bitter tears

Her gentle bosom heaved a sigh
And life seemed but a shade
O, my, what sorrow filled the heart
Of that dejected maid

Her bosom swelled with ceaseless pain
And sadness wrapped her mind
She could not see the twinkling stars
For that poor girl was blind

She could not see your brilliant orb
Which shines so clear and bright
She could not see the evening shade
Nor view the morning light

The flowers an emblem of her sex
Of innocence and worth
Had never a charm to sooth her grief
The angel of the earth

And though a darkness hid her eye
Her cheek was beauty's bloom
She could not see the blushing flower
But gazed its rich perfume

The boy that spans the heavens above
Was lost unto her view
She could not see its spreading arch
Nor paint its changeless hue

All, all was dark unto her path
And sadness over her crept
When early joys came to her mind
No wonder that she wept

For she once filled the childish game
Cheerfull free and kind
But time had wrought a sadning change
Upon that tender mind

And as the tear stole down her cheek
And sorrow filled her breast
Contentment reached the maidens breast
In heaven we all are blest

Order is heaven's first law; and this confessed
Some are, and must be, greater than the rest
More rich, more wise, but who infer from hence
That such are happier, shocks all common sense

Now plung'd in sorrow, and besieg'd, with pain
He finds too late all earthly riches vain
Disease makes fruitless every sordid fee
And death still answers; What is gold to me,

Mr. P. Howland, is certainly an Unfortunate
than his Ships do not do much take them
all in (here is the poor Old Marion doing well)
Hard Luck appears to follow them at first some
of them get some Oil but at last (get at skin voyage)

It sometimes appears that it is ordained that
we shall not be successful in this Enterprise
Could we be ~~so~~ fortunate enough to get
seven hundred barrels, & the time we are
Twenty Months out that would be very
encouraging indeed At Sea March 24, 1860

Oh grant in Mercy Heavenly Parent that we
may be so remarkably fortunate as to get One
Whale on this ground We Pray that we may not
be ruined this voyage, it sometimes appears that
it is ordained that this voyage will be my destruction
grant in Mercy that such may not be the case
We Pray: We ask in Mercy that we may be guided &
directed by divine influences & favour. Oh may we
be directed by Heavenly blessings aright
How thankful I should be. Could we but get two hundred
barrels of Oil this Cruise (or even One Hundred & Fifty)
Could we but get One Whale within One Month (or May 10th)
I would give for good purposes, A certain sum
but I fear the poor Old Marion will be Unfortunate
that we shall suffer severely (or be irrecoverably ^{on this voyage} ruined)

In Mercy Heavenly Father we pray we may be favoured
to get One Whale if consistent with thy Holy will
Guide direct & bless our next portion of our Labour,
shall be devoted to thy Holy Cause, April 27th

Forgive & Pardon our past sins & Grant in future we
may live more devoutly & bless us with some degree
of success I Pray if it is the Lord's will
April 28

Our Fate is sealed in the Hand of Providence, is
against us. Doomed to disappointment on this voyage
How Fortunate I have been on previous (occasions)
But now on this most important voyage ruined
for ever May 4th 1869

No treasures in the sea for the Marion nearly nine
Months, since we got a Whale & during that time
have seen Whales but once. I sometimes think
we shall never get another Whale & I do not know
as we shall be favoured to see One

Our Destiny is I fear fixed. A Broken Voyage
is inevitable there is Nothing for the poor Marion
what Oil we were to have was in the Atlantic
Ocean. None can be obtained any where else.

All the other ships except the Marion
have been favoured in seeing Whales with One
Exception. Oh how sincerely I wish the poor
Marion could see One — May 11th

Cruising on the Barren Water off the West Coast of New Holland
the J. Howland vessels are unfortunate & we must
share in this calamity with him (Oh) how Unfortunate
for us Grant Heavenly Parent if consistent with thy
Holy will that we may yet be so successful as
to get One more Whale, is the Perseverent Prayer of One
that is nearly indeed Aug 4/60

Oh, grant in mercy that the Barren Water's may produce
something for us.

How Unfortunate are we this voy-
age all Mr Howland's vessels are unsuccessful
& I am ruined by hard luck this time
this is the close of another of the many weeks & I
may well say months spent in vain (Sat. 18 Aug-18)

NOTHING in the sea for the Marion
Our fate is irrecoverably fixed I fear
The Hand of Providence is against us.

The Bark Marion has given the Water off
the West Coast of New Holland from Lat. 21° to 24° S
Long. 103° to 107.30° E. At most thorough search in vain
No Whales their Aug 29, 1860
Why the Poor Old Marion cannot find a Whale
is Strange ~~~

The Hand of adversity is against us I fear we shall
be irrecoverably ruined on this voyage every thing
goes against us. cannot find the Whales
& One of our Men lays at the point of Death
Our Shipmates Die in addition to all our troubles
in Mercy we pray that divine Blessings may yet
favour us if in accordance with the Lords Holy will
Sept. 11, 1860

Heavenly Parent in Mercy we desire to pray that the Hand
of adversity may be withdrawn from us if it is thy Holy will
look upon us with forgiveness & Mercy. Oh Grant that
we may be blessed in this undertaking we pray
in Mercy Grant that our dear Friend & Brother may
rest peacefully and quietly in his watery Grave, that his
future State may be glorious & happy

We desire Heavenly Father that thou wouldst bless us in
this enterprise again if in accordance with thy Holy will

dependant Creatures of thy Creation without, Heavenly
Blessings attend us we can accomplish nothing

the Hand of adversity that has long been against us.

Sund. Oct. 5th 1862

My Sins & transgressions are so great that. I never expect to get another Whale: The Ruler of the Universe will not suffer us to prosper again Our destiny is fixed it is of no use to look for Whales. Johns condition is much worse.

Never. Never more will I try Whaling again I. Hope. & trust

The Lords Power, is against us in all things Our Efforts are vain & accomplish nothing

The Lords Hand is so much against us it is in vain to think of getting A Whale I shall be forced to start for Home in a few Days more

Oct. 14 /62

Never. Never. So I believe the Lord will suffer the Poor Marion to get Another Whale

It is now Eight Months since we have got any Oil I do not expect to get any thing more

We have sailed over thousands & thousands of Miles of Water in vain; It is in vain to try to get a Whale The Lord will not suffer us

Sund Oct. 19 / 1862

The Lord has forsaken us; all his Mercies are withheld from us; No treasures in the Ocean for us.

No Blessings attend us; We are Unfortunate every way The Hand of the Lord is against us in consequence of my Sins & Wickedness. No more shall we be prospered this voyage; I. Hope that I shall Never Never more come Whaling again

Oct. 22

Oh Lord bless & prosper us once more in this Enterprise I. Pray. if consistent with thy Holy Will: Grant in Mercy that we may be once more favoured in our business we desire. Guide direct & prosper us again We know that unless divine favours attend us, all our efforts are vain; We thank thee for past Blessings & would Pray earnestly for, A continuance of Divine Blessings

Oct 22.

Oh LORD I desire & Pray that divine favours
& Blessings may Once more attend us in our Unfortunate
& Uncertain Enterprise: If the Lord in Mercy
would Once more smile upon & Bless us to get
A Whale: I will try to be A Better & more Useful
Man if the Lord will Grant me strength to do so
In Mercy Heavenly Father Bless & prosper that
dear Brother I Humbly Pray Oct. 23^d. 1862

The Ruler of the Universe will Not suffer the
Marion Not the Poor Old Addition to prosper
Our destiny is fixed disappointment is inevitable
The Lord will not suffer us to see A Whale
The Ocean is barren where we go I am
discouraged Fate has ordained that we shall
Not get A Whale while our Neighbours the
Bonanza & Minerva Catch them at
all times we cannot see A Whale
The Marion has cruised here ~~for~~ Weeks
& may Cruise ~~for~~ more without getting
A Whale
Jan^y 5, 1863

Heavenly Parent shall we ever be favored to
get through the Equatorial Calms: Grant in
Mercy that some favourable Breere may come
that we may be able to pursue our course
Oh preserve us from all danger Grant that
we may be so fortunate as to reach our
Home in safety is my earnest Prayer

Latⁿ April 11, 1863
Lat 44° 33' 10" N

Oh LORD I earnestly desire & Pray that thou
wouldst bless this Unfortunate Ship to get One Whale
if consistent with thy will: Grant in Mercy
Heavenly Father that we may, once more be blessed
with success in our unfortunate Enterprise
If Heavens blessings should favour us again
my share shall be devoted to Charitable purposes
Dec. 17

Heavenly Father in Mercy we Pray that the Hand of adversity
may not always be against this Poor old Addition
that she may be favoured to get One Whale if it is consistent
with thy Holy will If the Lord will bless us I will
devote my share to Charitable purposes

Jan. 28. 1867
If the disposer of events would prosper the Poor Old
Addition to get One Whale I would endeavour to be a
better Man if favoured in our Unfortunate Enterprise
would devote a portion of my share to Charitable purposes
Feb. 4

If the LORD would bless this Poor Old Ship to get One
Whale I would give my share to the Cause of Religion
and for Charitable purposes. ^{but} I fear we are doomed to
go home as poor and poorer than we are now, Feb. 20. 1867

If the Ruler of all Events would favour us once more
in this Unfortunate Enterprise how thankful I should
be I am very thankful for past favours &c.
April 1. 1867

If the Lord would but favour the Unfortunate Minnesota
to get One Whale how thankful I should be to the disposer
of all blessings I would try to become a Christian
